

West Elmira Computers Museum

August 2020 Newsletter

More hardware additions

The museum has added two more dedicated plug-and-play systems with classic built-in games.

August Museum Additions

(For games, and apps, see: http://www.wecmuseum.org/index.php?title=WEC_Museum_aquisitions)

August 1st: AtGames Adventure Flashback Blast plug-and-play system with 10 built-in games and a wireless gamepad controller.

August 1st: Bandai Namco Arcade Blast plug-and-play system with 10 built-in games and a wireless gamepad controller.

OpenQuest Part II

As part of the Coding for COVID fundraiser, being held by West Elmira Computers Museum with development handled by museum founder Jennifer McMurray's Cydoca Entertainment, *OpenQuest Part II* is being developed in the Wintermute engine for Windows, macOS, and Linux. It continues Michael Sheail's open-source adventure right where the last one left off.

If you would like to support the fundraiser, visit <https://donorbox.org/coding-for-covid/>. The West Elmira Computers Museum is a 501 (c)(3) charitable organization, EIN 83-2343976. Your contributions may be tax-deductible.

IRS e-Postcard Sent

The IRS e-Postcard has been sent for the 2019 fiscal year.
