

West Elmira Computers Museum

July 2020 Newsletter

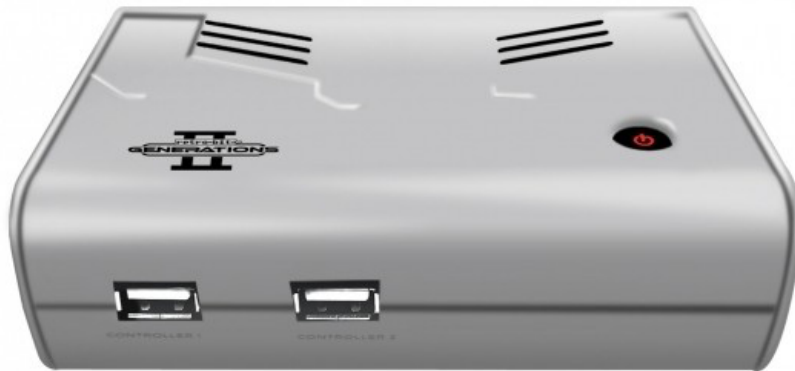

More hardware additions

The museum has added another dedicated console with classic built-in games.

July Museum Additions

(For games, and apps, see: http://www.wecmuseum.org/index.php?title=WEC_Museum_aquisitions)

July 4th: Japanese-exclusive Retro-Bit Generations II with a gamepad controller and forty-two classic video games.

Host Master and the Conquest of Humor

As part of the Coding for COVID fundraiser, being held by West Elmira Computers Museum with development handled by museum founder Jennifer McMurray's Cydoca Entertainment, *Host Master and the Conquest of Humor* is being converted from Flash (which is now outdated and unsupported) to the Wintermute engine for Windows, macOS, and Linux. This was the first game in the *Host Master* series, where Double Fine president Tim Schafer solves various puzzles in order to host the Game Developer's Choice Awards.

Double Fine has graciously allowed the use of their intellectual property for this fundraiser. If you would like to support the fundraiser, visit <https://donorbox.org/coding-for-covid/>

The West Elmira Computers Museum is a 501 (c)(3) charitable organization, EIN 83-2343976. Your contributions may be tax-deductible.
